## TAXES, DUTIES, FEES, Etc.

### I.—CUSTOMS DUTIES, ETC.

*Levied under the Customs Tariff Ordinance No. 1 of 1930.*

For the purpose of assessing the amount of any *ad valorem* Customs duty and for the purpose of the declarations and oaths which may at any time be required by law or regulation in relation to any question of such duty, the value of the goods for the purposes of duty shall be taken to be domestic value, as hereinafter defined, plus the extra cost of packing and packages for export, carriage to the port of shipment and all expenses incidental to placing the goods on board the ship, together with the cost of freight, insurance, and all other charges up to the time of importation into the Colony : Provided that in no case shall the value for purposes of duty be less than the cost of the goods to the importer at the place of importation.

For the purpose of this section “domestic value” shall, in respect of imported goods, be the market price at which at the time of exportation such or similar goods are offered for sale, for consumption in the country from which the goods are imported, to all purchasers in the usual wholesale quantities in the ordinary course of trade in the principal markets of such country, including the cost of packages ordinarily used in those markets, but not including any duties payable in that country.

*Note.*—Section 3 of the Customs Tariff (Amendment) Ordinance, 1932, which must be read in conjunction with section 4 of the Customs Tariff Ordinance, 1930, provides as follows, viz :—

“Notwithstanding anything contained in section 4 of the Principal Ordinance, the Commissioner shall be empowered, in respect of goods conveyed by air, to reduce the amount of the freight charges to be added to the value for purposes of assessment of duty to a figure of not less than one-fourth of the freight charges actually payable on such goods.”

## GENERAL NOTES.

The headings of the respective classes in this Schedule are used only for convenience of classification, and shall not in any way affect the interpretation of the Tariff.

"n.e.e." means "not elsewhere enumerated."

The term "in bulk" when it appears in the Tariff, means —

(a) goods loose without packing, or loose in barrels, casks or any other single outside package, but not including goods imported by parcel post;

(b) when in internal packages, that the net contents of any immediate container of goods weigh not less than ten pounds or measure not less than one imperial gallon.

Goods chargeable with duty by weight are, except where otherwise provided for, charged with duty on the net weight, which may be arrived at either by weighing net, or deducting from the gross weight the actual tare or an average tare agreed to by the importer.

Tins, jars, bottles and other receptacles of reputed weight or content to be deemed not less than such weight or content.

Twenty-four reputed half-pints, twelve reputed pints, six reputed quarts, or four reputed imperial quarts to be deemed to be not less than one gallon.

Cement in packages of not less than 350 lb. and not more than 400 lb. to be deemed 400 lb.

Oils and motor spirits in ordinary reputed two five-American-gallon or ten one-American-gallon tins to be deemed to be not less than 8½ imperial gallons, and two reputed four-gallon tins to be deemed to be not less than eight imperial gallons.

"Proof" shall mean the strength of proof as ascertained by Syke's hydrometer.

"Proof spirits" shall mean spirits which, at a temperature of 51 degrees Fahrenheit, weigh 12/13ths of an equal volume of distilled water at the same temperature.

A complete article imported in an unassembled condition, except where specially provided for, is liable to the rate of duty which would be applicable to that article if imported in a fully set up condition, notwithstanding that the constituent parts are packed separately and are separately provided for elsewhere in the Tariff.

Integral parts of an article which is liable to an *ad valorem* duty, or is free of duty, imported for replacement purposes, or as spare parts, shall be liable to the same rate of duty as the article itself, or free of duty, as the case may be, unless they are specifically excluded, or provided for elsewhere, in the Tariff.

**REFUND OF CUSTOMS DUTY.**

Refunds of excess duty and duty placed on deposit by tourists will not be made unless applied for within six months of payment and in terms of the Customs Management Ordinance (Chapter 87 of the Revised Edition).

Refund of full duty is allowed on imported goods when exported, if applied for within twelve months from payment of duty, and if certain conditions have been carried out in terms of section 163 to 168 of the Customs Management Ordinance.

Refund of full duty is allowed on goods declared for transit when exported, if applied for within six months from date of transit entry and on compliance with section 252 (1) (a) of the Customs Management Ordinance and Customs Management Ordinance Regulation 113.

## 33. IMPORTS.

(a) Storage charges as set out in the Schedule hereto will be levied on all cargo and merchandise for which the documents (as defined below) have not been received by the Administration, subject to a free period of 144 consecutive hours (excluding Sundays and public holidays, and other days when Customs duties may not be received) calculated from the time of notice of ship's arrival given and/or posted at the Port Administration's offices. Such free period is subject to sub-clause (b) hereof.

*Note A.*—In regard to paragraphs (a) and (b) above, when export traffic arrives at Kilindini Harbour from up-country on a Saturday afternoon, Sunday or public holiday, the free storage period in such cases will be calculated as from the first following working day.

*Note B.*—Export storage rent on any particular cargo ceases on the date on which the ship taking it commences to load.

- (3) The reduced storage charge of Sh. 1 per deadweight ton is subject to the proviso that if after the first seven days on rent at the reduced rate transfer charges are incurred on the goods concerned, these are to be paid for at cost by the exporter unless the ship which ultimately loads the goods has been nominated on the expiration date of the free storage period.

The above temporary amendment to Clause 34 of the Harbour Tariff is subject to termination on one month's notice being given in the public newspapers.

- (e) Acceptance at Kilindini Harbour of local export traffic by rail or road vehicle.

A shipping order must be presented at the time such exports are brought to the Harbour by rail or road.

Forty-eight consecutive hours' free storage will be allowed on such exports, the period commencing—

- (a) In the case of godowns on the low-level Harbour lines, as from the time and date stated on the exporter's copy of Harbour haulage ticket.

(b) In the case of godowns elsewhere on the Island, as from the recorded time and date of truck's arrival on Harbour low-level lines.

(c) In the case of export cargo brought to the Harbour low-level area by road motor vehicles, from the time and date at which it arrives. (In the event of such cargo being tendered without a shipping order, ordinary storage rent to be charged.)

**POLL TAX—NON-NATIVE.**

*Levied under the Non-Native Poll Tax Ordinance, 1933.*

*Date of Commencement—6th September, 1933.*

*Cap. 52.*

This Ordinance repeals the Non-Native Poll Tax Ordinance, (*Cap. 52*), and provides that a tax will be charged and levied on every non-native male and female resident in the Colony at a rate applicable to his taxable income.

The following persons are exempted from tax under the Ordinance :—

- (a) every person who has not attained the age of eighteen ;
- (b) every female whose taxable income does not exceed £20 per annum ;
- (c) every non-resident person.

In respect of 1933, tax paid under the Non-Native Poll Tax Ordinance, *Cap. 52*, may be set off against the amount of tax due under this Ordinance.

The tax is due and payable on the 30th June in each year ; provided that for the year 1933 the tax is due and payable on the 8th June, 1933.

Every taxpayer must submit a return of taxable income to the Collector on or before the due date. If this is not done, or tax is not paid in accordance with the return, the taxpayer is further charged with a penalty of 20 per cent of the tax payable.

The Ordinance provides for remission of the tax on the ground of poverty.

This Ordinance repeals the Traders' Licensing Ordinance, 1919, and provides, with certain named exceptions, for the licensing of all businesses, trades, industries, professions and hawkers, at an annual fee in accordance with the schedule hereunder. In respect of the year 1933, the fee payable is half of the annual fee as shown in the schedule, and against the fee so payable may be set off half of any fee paid in respect of a licence issued for the year 1933, under the Traders' Licensing Ordinance, 1919, provided that such licence is surrendered.

In cases where a licence is issued after the 30th day of June in any year, the fee for the licence is half the scheduled annual fee, and where a licence is issued after the 30th day of September in any year, the fee will be a quarter of the scheduled annual fee, except in the case of a licence to carry on the business of a commercial traveller.

Provision exists for the exemption of any business or profession, or any person carrying on any business or profession, in cases where such exemption is desirable in the interests of the community, or by reason of the business person or profession being liable to another fee.  PARTICULARS OF TOWN PLANNING SCHEMES IN PROGRESS.
 

---

## 1. MOMBASA.

(i) **THE MOMBASA TOWN PLANNING SCHEME, 1926**, (enacted under the Town Planning Ordinance, 1919). Scheme applies to the Island of Mombasa with exception of the Old Town of Mombasa, an unplanned densely built over area of about 70 acres on the eastern shore of the Island at the Old Port of Mombasa. The scheme consists for the most part of pooling and re-distribution of holdings of land and re-adjustment of boundaries, for the purpose of facilitating the provision of adequate roads. The scheme is being carried into effect by the Mombasa Municipal Board as Responsible Authority, with the District Surveyor as Executive Officer.

Various details of the scheme are under consideration with a view to revision by means of amending schemes to be made under the Town Planning and Development Ordinance, 1931.

(ii) **MOMBASA OLD TOWN IMPROVEMENT SCHEME**. This scheme consists of the provision of two 25-feet traffic thoroughfares through the Old Town. Adjustment of plots and holdings to conform to the new street building alignments is proceeding gradually, as opportunity offers, without further expenditure.

(iii) **MOMBASA MAINLAND NORTH (Mkomani)**. Preparation of a Town Planning Scheme, in accordance with the Town Planning and Development Ordinance, 1931, for the control of development on the Mainland was completed. After considering certain objections the Mombasa Municipal Board applied to the Governor in Council for provisional approval of the Scheme. This approval was accorded in August without any modification of the Scheme, and a notification to this effect was published and inspection of the Scheme invited. A few objections were submitted, which, at the end of the year, were still under the consideration of the Municipal Board.

## 2. NAIROBI.

(i) **COMMERCIAL AREA**. A scheme for this area was prepared in 1928. The area is about 700 acres, already largely developed. The scheme is being worked to as a non-statutory development plan subject to reconsideration as may be found desirable.

(ii) **DUKE STREET AREA**. This is an area of about 25 acres, the re-planning of which has become necessary owing to bad subdivision of properties and inadequate provision of streets. A scheme has been prepared and has been adopted as a non-statutory development plan. Considerable progress has been made by direct negotiations with plot holders.

## KISUMU.

**OLD BAZAAR**. Area about 20 acres. A scheme prepared in 1928 provided for the re-planning and re-development of plots, suppression of obsolete sanitary lanes, and widening of main road. It provided for the voluntary surrender of existing titles in exchange for new titles with building conditions to conform to new plot boundaries and building alignments. This scheme was satisfactorily completed during the year.

## 4. GENERAL.

Preparation of development plans and revisions of existing Township layouts is in hand for Nakuru, Eldoret, Kitale, Nyeri, Nanyuki, Thika and other Townships. Control of development is effected in accordance with provisional development plans already made or in course of preparation.

## (3)—WEIGHTS and MEASURES

The Standards of Weight and Measure legalised for use in trade are the Imperial Pound, Yard and Gallon as defined by the Imperial Weights and Measures Act, 1878.

The authorised denominations of weights and measures are the same as those in use in Great Britain, but with the exception of the 100 lb. or cental weight and the addition of the 4½ gallon measure (5 American gallons approx.)

Metric weights and measures legalised for use in Great Britain by the Weights and Measures (Metric System) Act, 1897, may be legally used in the Colony.

The use of some of the older measures still prevails in the outlying districts, the principal being the pishi, equivalent to 0.65 gallon, the kibaba, equivalent to 26 fl. oz., the term korja is also in use for a score, used in measuring poles.

The term frasila is still in use as a commercial term, but is always qualified by reference to the Imperial pound. The usual equivalent is either 35 lb. or 36 lb. and varies in different districts and with different commodities.

The paraffin or kerosene tin made to contain 4½ gallons is in common use among the natives for transactions in grain, potatoes and coffee.

The use of Imperial or Metric weights and measures is enforced in the principal trading centres and a regular system of annual re-verification and inspection is carried out.

## EXPLANATORY NOTES

1. The statistical year is reckoned from 1st January to 31st December, inclusive, and figures shown in these returns cover all imports and exports during that period

2. The following are definitions of terms used in these tables :—

“ *Domestic Produce* ” means goods, the growth, produce or manufacture of Kenya and Uganda.

“ *Home Consumption* ” is a technical term in use, and does not imply that the goods have been actually consumed in Kenya or Uganda, but that they have passed into possession of the importer and that duty has been paid on that portion liable to duty.

“ *Value* ”.—The value of imports is given as the value “ex-ship” at the port of entry ; such values exclude trade and cash discounts, but include freight, insurance and the value of the packages containing such goods, together with any commission paid.

For goods exported, the produce or manufacture of Kenya and Uganda “f. o. b.” Mombasa value is given while this value is also given for re-exports from open stocks. In the case of exports from bond, the value recorded is that at which the goods were originally warehoused.

“ *Country of Origin* ”.—Imports are credited, where possible, to the country in which the goods have been grown, manufactured or produced ; in cases where particulars of origin are not available, the goods are credited to the country of despatch.

“ *Country of Destination* ”.—By “countries of destination” is meant the countries of destination so far as can be ascertained at the time of shipment. In cases where particulars of ultimate destination are not known, the goods are credited to the declared country to which they are consigned.

3. The summary tables referring to imports (Nos. I, V, VIII and XII) cover all goods entered for Home Consumption but do not include goods imported on Government account or goods entered for warehousing and remaining in bond ; such goods being shown under their proper statistical headings in the detailed statement of imports (Table No. IX).

4. Goods entered for Home Consumption and subsequently re-exported are included in the import tables and are also shown in the tables of re-exports.

5. Separate particulars relating to imports and exports of goods declared in transit and transshipment are given. These are not included in the import and export tables.

6. Government stores, including material for Public Works, are recorded separately under their proper statistical headings and are shown in the detailed table of imports (No. IX).

7. Goods imported into bond are classified under their relative headings and included with the total imports in the detailed table of imports (No. IX) and goods exported from bond are recorded under their relative headings in the various re-export tables.

8. Goods imported as passengers' baggage are included in these tables as are also goods exported as ships' stores.

9. Fish caught in territorial waters are not included.

Sawmill licences	19	435,648	<p>No new licences were issued during the year. Of the total area under licence it is estimated that not more than 190,000 acres carry timber in workable quantities. Of the remaining 979,430 acres of commercial timber about half is at present economically inaccessible but it is possible that when a comprehensive timber survey can be undertaken the results will show that further acres could be opened for exploitation if trade conditions warranted it.</p> <p>Owing to the continued economic depression many of the sawmills remained closed or partially so but there was a slight improvement in sales of timber over those of the previous year.</p> <p>It is considered that a considerable export trade in certain timbers should be possible and some progress was made in this direction. Cedar pencil slats were exported to a value of £12,480 which was an increase of 10% over the previous year. Extensive trials were being made at Home of Camphorwood and a further large experimental shipment of E. A. Olive was arranged for.</p> <p>With a view to assisting the development of such a trade a grant was obtained from the Colonial Development Fund and an Officer deputed to study timber utilisation and timber trade methods in England.</p>

An amendment to these Rules, which prohibits the use of a net of less than 5" mesh has been found to be necessary in order to prevent the capture of immature fish. The effects of this legislation cannot be apparent for at least 3 years but a considerable increase of fish is anticipated after that period provided the fish patrol is maintained and the law enforced.

**(5)—WATER POWER**

The increased demand for electricity in the township of Nairobi and surrounding district has been met by development of the Maragua River at its junction with the Tana River. This scheme is supplemented by the hydro-electric station at Ndula on the Thika River. The small hydro-electric station on the Ruiru River has been thrown out of commission. There are a number of small schemes installed and operated by private landowners for working farm factories, principally on sisal and tea estates.

---

**(6)—INDUSTRIAL ESTABLISHMENTS AND MANUFACTORIES**

---

KENYA ALUMINIUM WORKS LTD., MOMBASA.—Manufacture of utensils from imported circles and sheets.

SOAP WORKS.—Principally at Mombasa, but there are many others scattered throughout the Colony. Total production 10-12,000 cases per mensem.

KENYA BREWERIES LTD., NAIROBI.—Beer and Stout. Production in 1933 approximately 138,000 gallons.

KENYA ORCHARDS LTD., MUA HILLS.—Jams and bottled soft fruits.

UPLANDS BACON FACTORY.—Bacon and Hams.

EAST AFRICAN SUGAR MANUFACTURERS ASSOCIATION.—Output of refined sugar in 1933, 7,780 tons.

TEA.—6 factories. Production of prepared tea in 1933 3½ million lb.

TOBACCO.—Output in 1933 of pipe tobacco 461 lbs.

In addition mention may be made of timber sawmills, flourmills, coffee cleaning works, gold mining, butter factories and minor creameries, native handicrafts, one cement factory grinding imported British clinker, the production of blood and bone meal fertilisers at the Nairobi Municipal Abattoir, expressors of commercial oils, aerated water bottlers and miscellaneous small foundry and engineering shops.

**(7)—SUMMARY OF INDUSTRIAL DEVELOPMENT****AGRICULTURAL**

(1) ACREAGE AND DEVELOPMENT.—The total area under occupation by Europeans as at the 28th February, 1933, was 5,206,264 acres; of this area 593,988 acres were under cultivation, while it was estimated that 2,230,670 acres were developed under livestock.

(2) OCCUPATION.—The number of occupiers as at 28th February, 1933, is given at 2,102, a decrease of 5 from that of the preceding year. The average area cultivated per occupier is 282 acres and the area developed under livestock 1,035 acres equivalent to a total of 1,367 acres per occupier. On an average each occupier exported produce to the value of £311 during the year.

(3) CROPS.—The area under maize increased during the year by 3,472 acres. The area under wheat decreased by 13,054 acres. Coffee increased by 1,513 acres, and Sisal decreased by 5,826 acres.

(4) LIVESTOCK.—The number of cattle in the possession of Europeans increased by 4.4 per cent during the year, the number of pigs increased by 6.3%; woolled sheep showed little change. The export of wool is given at 8,508 cwt., an increase of 9.3 per cent as compared with the preceding year.

**FORESTAL**

The general trade slump continued and its disastrous effect on the revenue was further accentuated by the failure of the long rains. Timber sales recovered slightly but there was a serious drop in sales of young plants and in firewood, the figures in each case being the lowest since 1926.

QUESTION.

I.—If the prisons are on a separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?

II.—If not on the separate system, what provision is there for the supervision of the prisoners while in association?

III.—How many cells are there; and how many associated wards?

ANSWER.

(1) None of the 30 prisons is on the separate system

(2) See V.

Warders patrol the corridors night and day.

107 Wards and 141 cells in 30 prisons, and in addition 40 wards in temporary buildings at Nairobi Prison.

## QUESTION.

## ANSWER.

IV.—Taking the *average* number of prisoners in gaol, how many cubic feet of space are there for each prisoner during the hours of sleep?

And what superficial area?

V.—How are the prisoners classified?

VI.—Is penal labour—that is, labour by treadmill, crank or shot drill—in force?

VII.—If so, during what periods of imprisonment, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of treadwheel labour, give, first the total time on and off at the wheel, etc.; secondly the length of spells and intervals of rest.

VIII.—What kind of labour, other than penal labour, is in use?

IX.—If the prisoners are employed beyond the walls of the gaol, state:—

(1) On what kind of work they are so employed?

(2) How are they supervised?

(3) How many escapes of prisoners, while being employed beyond the gaol, have taken place during each of the last three years?

(4) How the profits of their labour are accounted for?

X.—What was the total annual cost of the prisons during the year 1933?

The total cubic capacity of the 30 prisons is about 738,560 cubic feet, which divided by a daily average number in prison of 2,893 during 1933 gives an average of about 255 cubic feet per prisoner.

In the permanent portion of Nairobi Prison, a prisoner in a cell has 895 cubic feet, and prisoners in wards have 300 cubic feet each, and 29 super feet of floor area.
